Work Authorization: India | Willing to relocate Germany(Applied for Opportunity Card)

PROFESSIONAL SUMMARY

Senior Big Data Engineer with 10+ years of IT experience including 5+ years specialising in large-scale data engineering solutions across banking, e-commerce and oil & gas domains. Competent in distributed data processing, cloud migration, data reconciliation and data quality assurance using Apache Spark, PySpark, Hadoop, Hive, SQL, Python, and AWS. Experienced in on-premise to cloud migrations, enterprise data reconciliation programs, and high-volume data pipelines, with strong exposure to Agile delivery models, stakeholder coordination and production-grade data operations.

WORK EXPERIENCE

Aug 2022 - Present

Specialist Data Engineer (Senior Data Engineer) | LTIMindtree, Hyderabad, India

- Leading enterprise-scale data engineering initiatives, securing on-time delivery aligned with defined quality, performance, and governance standards.
- Designing and implementing PySpark-based data validation and reconciliation frameworks, enabling automated cross-table comparison and audit-ready reporting.
- Improving platform stability by resolving high-priority DCRM production issues, significantly reducing defect recurrence by 25% and strengthening end-user confidence.
- Delivering multiple Change Requests (CRs) within strict timelines, making it perfectly coherent with downstream risk and compliance systems without service disruption.
- Providing technical guidance to team members on data modelling, transformation logic, performance optimisation, and code quality standards.
- Acting as Shadow Lead, coordinating daily status reporting, tracking delivery risks, and resolving technical blockers in collaboration with project management and stakeholders.
- Actively participating in Scrum ceremonies, contributing to requirement clarification, sprint planning, release coordination, and automated deployment activities.

Jun 2021 - Aug 2022

Senior Data Engineer | Accenture, Hyderabad, India

- Developed and executed PySpark SQL pipelines to support large-scale data migration from on-premise platforms to AWS-based environments.
- Built and maintained data transformation workflows using AWS Glue for scalable cloud processing.
- Owned end-to-end data quality validation, securing accuracy, completeness, and consistency of migrated datasets.
- Participated in formal verification and validation reviews, supporting compliance and audit readiness of migration processes.
- Demonstrated strong autonomy while contributing effectively within distributed engineering teams.

Feb 2020 - Jun 2021

Data Engineer | Tata Consultancy Services (TCS), Hyderabad, India

- Contributed to enterprise data engineering projects with focus on data privacy and regulatory compliance.
- Implemented PII data nullification and masking strategies for Hive-based target tables in line with governance requirements.
- Performed code analysis and optimisation to improve performance and maintainability of existing Spark and Hive workloads.
- Documented and maintained development standards and best practices for data pipeline execution and operational support.

Nov 2015 - Feb 2020

Senior Consultant | OpenText Technologies, Hyderabad, India

- Delivered enterprise document and output management solutions using OpenText StreamServe for global clients including PHI, Fiskars, and Linde.
- Designed and customised invoice templates aligned with client business and compliance requirements.
- Installed, configured, and maintained StreamServe environments, including patch deployment and production monitoring.
- Ensured SLA adherence through proactive incident handling and rapid resolution of production issues.
- Collaborated closely with business stakeholders to translate functional requirements into stable technical solutions.

TECHNICAL SKILLS	• Big Data & Processing: Apache Spark, PySpark, Hadoop, Hive, SQL, Scala • Cloud & Platforms: AWS, AWS Glue, Databricks, Cloudera • Data Engineering & Governance: Data Migration, Data Reconciliation, Data Quality Validation, PII Data Masking • Development & Operations: Python, Unix, GitHub, Autosys • Methodologies: Agile / Scrum
EDUCATION 2011 - 2015	• Bachelor of Technology (B.Tech) in Computer Science from Jawaharlal Nehru Technological University, Kakinada, India
CERTIFICATIONS	• Databricks Certified Associate Developer for Apache Spark • Databricks Certified Data Engineer Associate
LANGUAGES	• English - Profesional • German - A1(Learning)
