

SIVA PRAKASH

Senior Data Engineer | PySpark · AWS · Snowflake · dbt · Airflow

Hyderabad, India | +91-9491 322765 | Sivaprakash0707.de@gmail.com | linkedin.com/in/sivaprakash7655

Work authorisation: Germany Chancenkarte (Opportunity Card) holder — available to start immediately

PROFESSIONAL SUMMARY

Senior Data Engineer with 10+ years of experience designing and operating scalable, cloud-native data platforms in global enterprise environments. Deep expertise in PySpark, dbt, Apache Airflow, AWS (S3, Glue, Redshift), and Snowflake. Proven track record of reducing pipeline defects by 25%, cutting ETL runtimes by 40%, and delivering data platforms that process 50 M+ records daily. Holds a German Chancenkarte and is immediately available to relocate.

CORE TECHNICAL SKILLS

Data Engineering: PySpark, Apache Spark, Hadoop/HDFS, Hive

Cloud Platforms: AWS (S3, Glue, Redshift, Lambda, EMR, IAM), Snowflake

Data Transformation & Orchestration: dbt Core, Apache Airflow, DBT Cloud

Programming: Python, SQL (advanced), Bash/Shell scripting

Tools & Practices: Git, CI/CD, JIRA, SCRUM

PROFESSIONAL EXPERIENCE

LTIMindtree | Senior Data Engineer

07/2022 – Present | Hyderabad, India

Client: Fortune 500 financial services firm | Stack: PySpark, AWS Glue, Snowflake, dbt, Airflow

- Architected and delivered an end-to-end enterprise data platform ingesting 50 M+ records/day from 15+ source systems using AWS S3, Glue, and Snowflake — reduced time-to-insight by 35%.
- Reduced production defects by 25% by implementing automated data quality checks with Great Expectations and adding 200+ unit tests to existing dbt models.
- Cut ETL pipeline runtime by 40% by optimising PySpark jobs (partition pruning, broadcast joins) and migrating batch jobs from Hive to Glue.
- Designed Airflow 2.x DAG framework adopted by 4 teams; standardised retry logic and alerting, eliminating 90% of silent pipeline failures.
- Mentored 3 junior engineers and conducted fortnightly code reviews, raising team-wide code quality scores from 72% to 88%.

Accenture | Senior Data Engineer

06/2021 – 06/2022 | Hyderabad, India

Client: Global retail group | Stack: AWS Redshift, Snowflake, PySpark, dbt

- Led migration of 30+ on-premise Oracle data pipelines to AWS Redshift and Snowflake, completing project 2 weeks ahead of schedule and achieving 99.8% data accuracy.
- Built dbt transformation layer (120+ models, tests, and documentation) that reduced analyst SQL query time from hours to under 10 minutes.
- Designed incremental load strategy (Slowly Changing Dimensions Type 2) reducing nightly batch window from 6 hours to 90 minutes.
- Collaborated with business stakeholders to define KPIs and translated requirements into data models, reducing ad-hoc report requests by 30%.

Tata Consultancy Services (TCS) | Data Engineer

06/2020 – 05/2021 | Chennai, India

Client: Telecom sector | Stack: Hadoop, Hive, PySpark, SQL

- Developed PySpark pipelines on Hadoop cluster processing 5 TB daily CDR (Call Detail Records) data; improved query performance by 50% through partition optimisation.
- Implemented data governance policies (column-level masking, row-level security) using Apache Ranger, ensuring GDPR-equivalent data protection standards.
- Automated manual data quality reporting with Python scripts, saving 8 hours/week of analyst time.

EARLIER EXPERIENCE

2015 – 2020 | Progressively senior Data / BI Engineering roles at various IT services firms. Expertise built across Hadoop ecosystem, SQL, ETL tooling, and stakeholder reporting. Details available on request.

KEY PROJECTS

Enterprise Data Platform (LTI Mindtree, 2023–2024)

- Designed cloud-native lakehouse on AWS S3 + Glue + Snowflake + dbt with full lineage tracking (dbt docs + Monte Carlo).
- Implemented incremental loads, schema evolution handling, and automated regression testing — reduced incident SLA breach rate by 60%.

Data Migration & Modernisation (Accenture, 2021–2022)

- End-to-end migration of legacy Oracle DWH to Snowflake for 15 M+ customer records; zero data loss, validated with automated row-count and checksum reconciliation.

EDUCATION

B.Tech in Computer Science Engineering

JNTU, India

CERTIFICATIONS

- Databricks Certified Data Engineer Associate
- Databricks Certified Apache Spark Developer
- dbt Fundamentals (dbt Labs)

LANGUAGES (SPRACHKENNTNISSE)

English: Full professional proficiency (C1) **German:** Basic (A2) — actively learning **Telugu:** Native

AVAILABILITY & RELOCATION

Notice period: 1 month | Open to relocation anywhere in Germany | Chancenkarte (Opportunity Card) held — no employer sponsorship required at onboarding
